

Mecal MR IDC – IDC Applicator

Produced under a Quality Management System certified to ISO 9001 and I4001 (TÜV)
Specifications subject to change. Consult Mecal srl for latest specifications

The MR IDC – IDC Applicator represents a quality low cost solution for crimping Insulation Displacement Connectors. It fits to any standard Press with 135.8mm shut height (however different arrangements are available on request). By means of a pneumatic loader, the connectors are gently fed into the crimping area. It can provide multiple crimping or single crimping (i.e. cavity by cavity), depending on the configuration design and cable structure,

(Released on November 2005)
